

## A ROADMAP TO AFRICAN AMERICAN AND DIVERSITY RESOURCES (ARAADR)

A Roadmap to African-American Resources (ARAADR)

URL: <http://www.araadr.org/resorlik.htm>

Developed by Sherry Sherrod DuPree (Santa Fe Community College)

This site offers students and researchers a selective guide to African American resources. Anyone interested in knowing the theme of African American History Month will find it on the site's opening page. The various links, uniquely categorized according to the Library of Congress classification system, include links originating from academic institutions, professional organizations, government agencies, societies, news agencies, and businesses. Each category includes an appropriate African American quote or African proverb. The Ready Reference section provides links to introductory information about internet research, search engines, and sources treating African American culture. The site includes attractive graphics and navigation is rapid and easy. Although several links sites no longer exist, undergraduate and graduate students will find this site useful. N.M. Allen, Reference Department Coordinator, University of South Florida. CHOICE MAGAZINE, October 2002, E 40-0627 [Internet Resource]
